

2025 CSA 100K DNA Program

Beginning January 1, 2025, the CSA is offering a rebate to cover part of our member's costs to do genomically enhanced parentage panels on heifers and bulls born in 2025 that are 100K DNA tested.

DNA must be submitted to the lab by December 31, 2025. All 2025 born calves with a 100K test result confirming accurate parentage verification at March 1, 2026 will be credited \$10 per animal to active CSA member accounts up to a maximum of \$100,000.
